

Science of Time and the Theory of Everything New Edition

Bhausahab Bhosle

Date of Submission: 08-03-2023

Date of Acceptance: 21-03-2023

There was nothing in the beginning. Nothing covered nothing. Time is a continuity of moments. Science of time is science of yoga. Yoga is derived as a sum of numbers. Sum of numbers is the frequency of numbers. Frequency as the energy density of the moments defined as the energy-mass of the moments. In the cosmos, first was the moment of space-time. Space-time energy in the vacuum (cosmic vacuum) as instants. Which stabilize into soliton, stable energy particle (self-vibrating). Two such vibrating particles form into twins of fermions and two fermions join together to become a boson (energetic photons). Similarly two bosons (energetic photons) become fermionic photons.

60 seconds is a minute of time of duration. 60 minutes is an hour.

72 seconds is a minute of time of manifestation. 60 minutes is an hour.
Similarly, 4320 minutes is an hour.

12 hour is a day.

24 hours is a day and night.

This is an earthly second. Similarly, 18,712,080,864,000,000,000 years is a minute.

72 minutes is an hour.

Similarly, continuity of moment can be calculated after 18,712,080,864,000,000,000 years as a second.

18,712,080,864,000,000,000 years * 2 is a bosonic integer rotation.

18,712,080,864,000,000,000 * 4 years = 74,848,323,456

This is the whole secret of time.

As far as, untouchability is concerned which I have mentioned in my last paper, it seems it is a passing phase composed by Manus Smriti (Smriti means memory). Which was brought in dharma Shastra which was quoted as original Vedas. People just forgot their importance of dharma Shastra which is coming up very fast through the politics. Which was controlled by few rich Brahmana's (Peshwas) that time, to bring Peshwai Raj again. And people have forgot 70 years before Peshwai Raj in Pune governed by the rich Peshwa family (shremant Peshwa family). How they controlled whole of India by the name of Dharma Shastra quoting the ancient Vedas and frightening the people falling into hell, if not responded to the Dharma Shastra. They are now making Nathuram Godse murder of Mahatma Gandhi as a hero and Savarkar supporter of Dharma Shastra as national hero.

People have forgotten what is Hindutva and Dharma Shastra. People are claiming to belong to backward classes, to get the government facilities. They are clamoring to get other backward classes, not knowing what is a backward class and the untouchability. There were people with broken pots in which they carried human excreta and the human faeces away from the population to be dumped in rivers or oceans. Human

faeces flowing down from their hair, faces, body with the broom tied on their waist, so that their footprints didn't remain on the road. This was carried on from father to son throughout 100's of years without respite, by the name of god and the quoting of Vedas. They were frightened for in hell.

Mahatma Gandhiji had offered them the government facilities with the help of Ambedkar, which people have forgotten. Now, Hindutva is brought fast through the politics and everybody is clamoring to be part of politics.
