

3G Mobile phone Induces Cancer?... (A New theory on impact of IR Radiation and O type blood)

M.Arulmani¹, V.R.Hema Latha²

¹B.E. (Engineer)

²M.A., M.Sc., M.Phil. (Biologist)

Abstract:- This research article focus that “3G Mobile Phone” shall be considered as a Technological advancement tool and Nature’s gift for enhancement of **Human life style** rather than considered as a **Health Hazard barrier and Induces cancer**.

This article emphasize that cancer shall be considered as the **3rd generation disease** due to impact of **IR Radiation** and evolution of “**O**” type **Blood** origin in Human, in the **expanding universe** rather than use of mobile phone. In other words IR radiation environment and O type blood origin shall be considered as having highly degraded immunity against cancer.

Elephants do not use Mobile phone!..., **Apes** do not consume tobacco!... **Birds** do not drink Alcohol!!!..., But the **cancer disease attacks** Elephants, Apes, Birds also!... Current theory couldn’t have any definite conclusion on the reason for fast cancer growth?...

“3G mobile phone working in Non ionized state, RF radiation Bandwidth can’t induce cancer disease. In fact IR radiation and O type blood origin shall be considered as the root cause for human immunity loss and carcinogenic effect”

Keywords:-

- 1) Philosophy of Human Blood origin and **three blood species era**.
 - 2) Philosophy of Expanding Universe and **three geological period**.
 - 3) Philosophy of **Neutrino fluid**.
 - 4) New definition for **cell and cell structure**.
-

I. INTRODUCTION

Cancer (medically known as Malignant Neoplasm) is considered as broad **group of diseases** involving unregulated cell growth. During cell division process cancer cells are considered uncontrollably forming malignant tumours and invading nearby parts of Body.

Current study shows that the cancer rate is expected to increase **75% by 2030**. Cancer disease is primarily considered caused 90-95% due to **environmental factors** such as exposure to radiation, alcohol, Tabaco, dietary, infection and 5-10% due to **genetic reasons**.

In order to prevent cancer in Global system for mobile communications (GSM), ICNIRP (International Commission on non-ionizing radiation protection) in 1996 made **reviewed guidelines** related to Health issues and mobile phone use and base transmitters. As such global level countries are maintaining the minimum SAR exposure (specific absorption rate) level of energy absorption from radio frequency fields in the frequencies used by mobile phones.

It is focused that the cancer growth shall be considered as 3rd generation disease due to **wide genetic variation** in human in **three generations** rather than environmental factors like intensive usage of mobile phone and RF radiation, dietary etc.

II. PREVIOUS PUBLICATION:

The philosophy of origin of first life and human, the philosophy of model Cosmo Universe, the philosophy of fundamental neutrino particles have already been published in various international journals mentioned below. Hence this article shall be considered as **extended version** of the previous articles already published by the same author.

III. HYPOTHESIS

1) **3G mobile phone** shall be considered like a full-fledged **CHILD** with consistently developed organs in **three Trimester periods** within **mother’s womb**. The 1st, 2nd generations of growth shall be considered as Embryo and Fetus stage”.

2) The three trimester periods shall be considered as three generation in **cosmological periods** existing with three distinguished radiations exposure as stated below.

- a) Prehistoric Time – UV radiation only (**1st generation**)
- b) Ancient time – UV, RF radiation only (**2nd generation**)
- c) Modern time – UV, RF, IR radiation (**3rd generation**)

3) In the expanding universe three human types shall be considered as lived in different environment conditions since origin **with different blood groups** and with different **genetic structure** as stated below.

- a) Prehistoric time – 1st generation population (**AB type blood only**)
- b) Ancient time – 2nd generation population (**AB, A, B type blood only**)
- c) Modern time – 3rd generation populations (**AB, A, B, O type blood**)

4) In three generation the three different populations shall be considered having **varied Immune system**.

- a) Prehistoric time – 1st generation population with **high Immune system**.
- b) Ancient time – 2nd generation populations with **moderate Immune system**.
- c) Modern time – 3rd generation population with **low immune system**.

IV. HYPOTHETICAL NARRATIONS

a) 3G Blood evolution and Immune system?...

It is focused that the so called modern human have four type of blood system (ie.) AB, A, B, O with +, - RH factor. It is hypothesized that all the four type of blood might have been originated in different period of **three generation**. It is hypothesized that the AB type shall be considered as **Ist generation blood** and the so called Angel populations might have had only single type AB blood. **Angel** shall mean single blood type population. The AB blood shall be considered as **Black body blood having high Immunity**. It is speculated that the 1st generation population shall be considered as absolutely free from cancer, and other disease though they lived in UV radiation environment.

The 2nd generation populations shall be considered having only **three blood type system** in Ancient time. The three blood type might have been evolved when RF radiation originated in the Universe. The three blood type shall be considered as 2nd generation blood and having **little degraded immune system**. It is hypothesized that the so called **DRAVIDIAN** populations in human Anthropology shall be considered as 2nd generation populations. **Dravidian shall mean “Three blood type populations”**. In Ancient time the Dravidian population shall be considered lived in UV, RF radiation environment even much before origin of IR radiation and ‘O’ type blood. The 2nd generation populations also shall be considered as much Immune to cancer attack and other disease.

The 3rd generation populations shall be considered having **four type of blood system** in modern time. It is hypothesized that the ‘O’ type might have been evolved after origin of IR radiation and ‘O’ type shall also be called as 3rd generation blood. It is speculated that the 3rd generation populations might have lost much immunity because of much **deviated genetic structure** having wide **DNA, RNA, PROTEIN** variation due to impact of IR radiation.

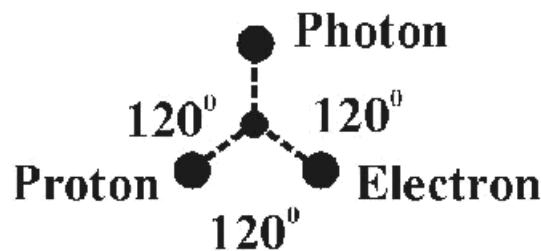

It is speculated that severe cancer attack and other disease like Heart failure, other bacterial infections might have occurred in 3rd generation. In human Anthropology the so called **Aryan** populations shall be called as 3rd generation population. **Aryan shall mean four blood type population**.

It is further hypothesized that the so called **WBC** (white blood cells) might have occurred in 3rd generation blood along with ‘O’ type blood to **counter act** the highly degraded immune system in 3rd generation population. The 1st generation population shall be considered free from **WBC, RBC** and RBC probably evolved along with 2nd generation blood along with AB, A, B type.

b) Philosophy of Neutrino fluid?...

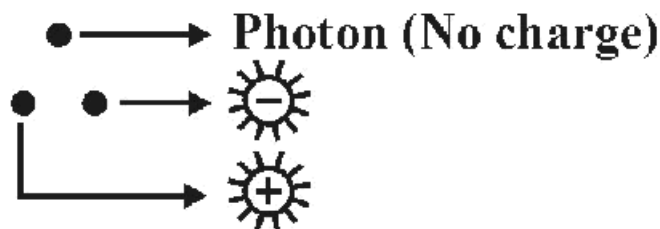

There is no current theory that how naturally blood is secreted and what are fundamental constituents of blood. It is focused that the naturally secreted blood shall be considered composed of three-in-one fundamental neutrino particles **PHOTON, ELECTRON, PROTON**. These fundamental neutrino particles shall be considered derived from **dark matter, dark energy** of the universe. The fundamental Neutrino particles shall be considered as having **zero mass** and having definite electric, magnetic, optic property and having definite charge property as stated below.

(i)

(Neutrino Oscillation)

(ii)

The philosophy of existence of various type of blood, associated with various RH (Rhesus factor) shall be considered as existing due to varied composition and **mass** of photon, electron, proton neutrino particles under varied pressure, temperature, density conditions in the expanding universe.

“The blood shall alternatively be called as Neutrino fluid Different Blood type shall be considered having varied level of Neutrino Mass and Immunity against cancer and other disease”

c) Philosophy of Radiation?...

It is hypothesized that Radiation shall be considered as the most fundamental matter existing even before origin of **PLASMA** and other three states of matter **solid, liquid, gas**. The Electromagnetic radiation, Alpha, Beta, Gamma radiation, X-ray radiation etc shall be considered as composed of **varied mass level** in Neutrino particles under different environment conditions such as varied pressure, temperature, density in three generation of cosmological period.

The UV, RF, IR radiation shall be considered as the most fundamental spectrum in Electromagnetic radiation in the universe having distinguished **physical, chemical, mathematical** properties as stated below.

a) UV Radiation (1st generation)- **Photon enriched radiation**

b) RF Radiation (2nd generation)-**Electron enriched radiation**

c) IR Radiation (3rd generation) - **Proton enriched radiation**

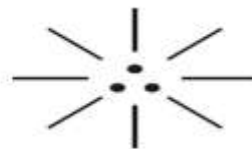

“Varied property of UV, RF, IR radiation origin in the universe in three generations of cosmological periods might have varied the immune system against cancer growth in human as well as other living organisms”

d) New definition for Cell and Cell Structure?...

The term **CELL** has broad meanings in English. In biological term cell is considered as smallest unit of tissue and constitute building block of life. In mobile communication the term cell is considered as geographical area in circular path covered by transmitting tower representing electromagnetic wave signal strength. In chemistry cell is considered as smallest unit of storage of energy. In computer term cell is considered as a smallest unit in the spread sheet containing definite data.

It is focused by the author that in the astrophysics the term cell shall be considered as representing fundamental particles of Universe called as **GOD PARTICLES**.

*“The term cell in astrophysics shall be hypothetically defined as **THREE-IN-ONE** fundamental Neutrino particles comprising of **PHOTON, ELECTRON, PROTON** having zero mass. These particles shall be considered as symmetrically displaced by 120° angle and having sustained oscillation. The fundamental cell shall be considered as having definite electric, magnetic, optic property and charge property and considered responsible for existence of all matters including various planets in the Universe under equilibrium condition.”*

(NEUTRINO CELL STRUCTURE)

In the expanding Universe the symmetry among particles of the cell might have been disturbed, which might have been resulted in variation in cell structure and genetic structure in immune system of human in three generation of cosmological period.

e) Biblical ADAM had AB type blood?...

It is focused that various global research exist about blood type of Adam & Eve. It is hypothesized that based on Biblical understanding three generations of human populations and their blood type shall be formulated as below:

a) **ADAM & EVE, ANGELS** - 1st generation population (AB type only)

b) **NOAH** origin - 2nd generation population (AB, A, B type)

c) **JESUS** origin - 3rd generation population (AB, A, B, O)

f) JESUS has brought cancer?...

It is hypothesized that **JESUS** may be considered as the **first person** Whom ‘O’ type blood is originated due to impact of IR radiation origin. JESUS shall be considered as the **3rd generation population** originated in modern time.

Further during JESUS origin the universe shall be considered as enriched with IR radiation and got birth of ‘O’ type blood with associated WBC (white blood cells). The IR radiation environment and ‘O’ type blood origin shall be considered as highly degraded immunity to cancer.

(UNIVERSAL DONOR BLOOD)

“JESUS might have born with ‘O’ type blood with WBC to corrode his cell tissue of highly deviated DNA, RNA, and PROTEIN value to make **NEW TISSUE ON THE CROSS**. The WBC originated probably as **fighting agent** against the existing tissue cells of Jesus. The process of fighting process for building up new tissue with new cell may be called in medical term as “**CARCINO GENEIC**”.

g) Cancerous patients are so blessed?...

It is speculated that JESUS might have died on the cross **with cancer** and **resurrected with New Tissue** to redeem his children. The cancer patients shall be considered as so blessed that **JESUS so love them for redemption**.

h) Case study on Cancer Research?

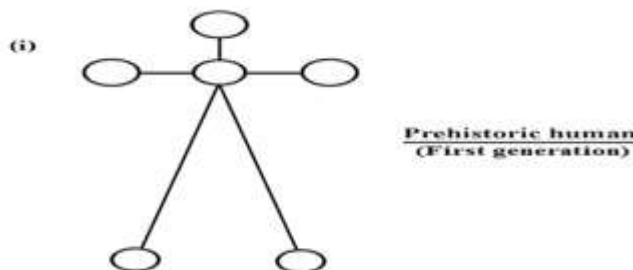

- a) Mutations occur naturally in the bodies of everything (Birds, plants, human) as everything is made of DNA
- Researcher.
- b) Significant Percentage of well cared for pets will ultimately die of cancer. Cancer normally occur in older birds.
- Dr.Phil sacks, Bird Vet/Avian vet, Melbourne.
- c) Genetics inarguably play major role in the livelihood of cancer among birds. Like in human, Squamous cell Carcino is a common cancer among birds.
- Jeffrey Jenkins, Avian and Exotic Animal Hospital.
- d) The ionizing proton of EM spectrum (made of ultraviolet light, gamma rays, and x-rays that have very short wavelengths, very high Frequencies, very high intensities) does affect biological tissue. Mobile phone do not operate in this spectrum.
- Researcher.
- e) The only way ELF fields interest with living tissues is by inducing electric fields and current in them.
- World Health Organization.
- f) The exposure to RE radiation below NRPB, and ICNIRP guidelines do not cause adverse Health effects to the general population.
- Expert group on mobile phone UK (May 2000)
- g) The study of relationship between exposure to radio frequency fields and different types of cancer, reproductive problems, congenital anomalies, epilepsy, headache, and suicide conclude that there is no evidence of health effects from Radiofrequency exposure.
- Expert panel of Royal society Canada.
- h) The results of epidemiological and Laboratory studies relevant to cancer do not form an adequate basis for limiting human exposure to wireless phones. There is no convincing evidence that exposure to RF shortens the life span of humans, induces or promotes cancer
-WHO, ICNIRP (1996)
- i) The maximum power that GSM phones are permitted to transmit is 2W (900 MHz), 1W (1800 MHz)
- Present global standard.

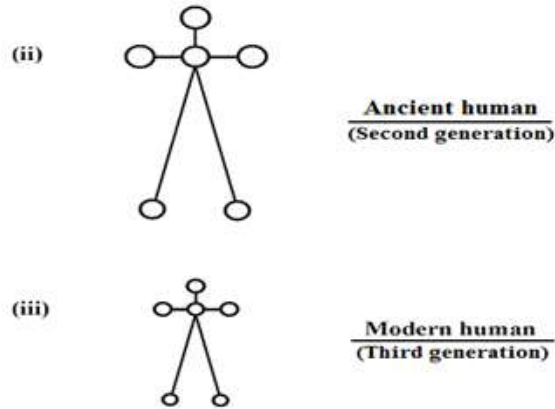

V. CONCLUSION

Case study shows that UV radiation therapy is performed in medical application for treating the cancer especially in the treatment of disease affecting the **skin**. It is speculated that the 1st generation population are **highly immune to cancer** may be due to the fact that they have lived under **UV radiation environment in prehistoric time**. The conclusion of the author is as follows:

- a) UVR and AB type Blood highly resists cancer!...
- b) RFR and AB, A, B type Blood moderately resists cancer!!...
- c) IRR and O type Blood considerably Induces cancer!!!...

“BSNL mobile phone do not Induce cancer. “**BSNL**” shall alternatively mean **BIRTH OF SOUL FOR NEW LIFE**”
